ABSTRACT

In order for the implementation of democracy at the grassroots level in ethnic minority areas of Quang Nam province to achieve good results, it must be built on a solid foundation of the Party's and the Party's viewpoints, policies and guidelines agencies, departments, unions... The main solutions to effectively implement democracy at the grassroots level in ethnic minority areas of Quang Nam province are based on the proposed system of viewpoints. The combination of strengthening the leadership and direction role of Party committees and authorities, thereby creating increased awareness, sense of responsibility and promoting propaganda work of cognitive subjects; leading to a process of interaction between all agencies, departments, branches, organizations, and unions, ensuring conditions for people to practice democracy at the grassroots level and ultimately monitoring the power of contributions. on creating a better social environment for people living in ethnic minority areas.

Keywords: Solution, democracy, grassroots democracy, ethnic minorities, Quang Nam province.

1. Introduction

Among the many issues raised in building socialist democracy in our country today, the implementation of democracy at the grassroots is a major issue that has both basic and long-term theoretical significance, as well as has practical significance and urgent topicality. For people in ethnic minority areas of Quang Nam province, implementing democracy at the grassroots means knowing how to use their democratic rights at the right time and place, daring to speak, daring to do, daring to fight to protect their rights and interests. their responsibilities according to the law. Successful implementation of this issue will create great motivation in promoting economic and cultural development, maintaining political and social stability to carry out industrialization and modernization of agriculture. , rural areas and new rural construction. However, in reality, the

implementation of democracy at the grassroots level in ethnic minority areas in Quang Nam province still has many difficulties and obstacles, so it is necessary to find the causes and proposed solutions to effectively implement democracy in Quang Nam province. The foundation of ethnic minority areas in Quang Nam province is extremely necessary, not only has theoretical significance but also practical significance.

2. Research methods

The article is written on the basis of the worldview and methodology of Marxism-Leninism, Ho Chi Minh's thought, the views, policies, guidelines of the Party, and the State's legal policies on this issue. The issue of implementing democracy at the grassroots level in ethnic minority areas in Quang Nam province.

During the research process, we also use a system of methods such as: textual studies, analysis and synthesis, deduction and induction, logic and history, system and structure, comparison and comparison. ... to perform. Methods are used flexibly in each specific content in the topic, in accordance with the specific purpose and requirements of each content. In particular, the textual method is used throughout the article to ensure the connection and cohesion of the issues and content in the article in a consistent order and layout to achieve the goals and requirements. demand has been determined.

3. Research results

3.1. Strengthen the leadership and direction role of Party committees and authorities in implementing and organizing the implementation of grassroots democracy in ethnic minority areas in Quang Nam province

Strengthening the leadership and direction role of Party committees and authorities in implementing and organizing the implementation of grassroots democracy plays an important role in ensuring legitimacy, effectiveness and sustainability. People in ethnic minority areas can only truly promote their right to mastery at the grassroots level in ethnic minority areas when there is a coordinated operation between party committees and authorities at all levels in leading and directing the implementation of ethnic minority areas. Owners of ethnic minority establishments; This means that there must be synchronous and smooth coordination between the two sides "Party leadership" and "State management" to achieve the goal of "people's mastery". Implementing this motto well will make an important contribution to improving the effectiveness of implementing grassroots democracy in ethnic minority areas in Quang Nam province today.

Every year, authorities from central to local levels provide guidance and direction for the implementation of grassroots democracy, especially in ethnic minority areas. This is very

important to clearly define the responsibilities of the heads of organizations in the political system, as well as the responsibilities of officials and civil servants in the process of implementing grassroots democracy. Specifically, this process includes developing regulations and implementing coordination between the People's Council, People's Committee, and Fatherland Front Committee, and socio-political organizations. This is closely related to the responsibilities of each agency and organization in complying and implementing democratic regulations at grassroots units in Quang Nam province. In addition, enhancing the responsibility of Party committees, authorities, Fatherland Front, mass organizations, and the people at all levels in implementing democracy in ethnic minority localities in Quang province are very important. This needs to be closely connected with the work of consolidating and building a team of cadres in the political system at the grassroots. First of all, positions such as Party Cell Secretary and Chairman of the People's Council and People's Committee at all levels must be role models in implementation and show determination in cases of violations in implementation. present grassroots democracy. In addition, the role of people's groups in villages is also very important, therefore, it is necessary to ensure that these positions are properly trained and compensated.

Focus on building clean and strong grassroots party and party cells, promoting leadership roles and directing the implementation of grassroots democracy in ethnic minority areas in Quang Nam province. If the Party base is clean and strong, then the implementation of grassroots democracy will truly be highly effective. It can be seen that the position and role of the heads of party committees and units is extremely important, a decisive factor in the implementation of grassroots democracy in general and in ethnic minority areas in particular. On the basis of the Party's guidelines, policies, directives and resolutions, and the State's legal policies on democracy at the grassroots level in ethnic minority areas; Derived from the actual conditions and requirements, aspirations, and interests of the people in ethnic minority areas, party committees at all levels need to promote collective intelligence to properly build and promulgate directives and recommendations. resolutions, regulations, and documents for implementation in accordance with the actual conditions and interests of the people in local ethnic minority areas.

Governments at all levels need to promote their role in implementing directives and resolutions, flexibly and creatively integrating the implementation of grassroots democracy in ethnic minority areas. Identify this as a central, regular and continuous political task; During the implementation process, we always attach importance to inspection, supervision, urging, and timely reminders to detect shortcomings and limitations and propose solutions. Thoroughly reform administrative procedures to reduce inconvenience to citizens, properly and quickly handle issues related to the lives and interests of people in ethnic minority areas. Strengthen socialist legality, aiming to promote the people's right to ownership and participate in socio-

economic development; prevent phenomena of evading legal principles; Properly handle acts, violations of law, embezzlement, and corruption in ethnic minority areas.

Strictly implement the principles of democratic centralism, self-criticism and criticism, the Party's exemplary regulations, and the Party Central Committee's regulations on what party members cannot do. Resolutely oppose manifestations of sectarianism, localism, and "group interests". Promptly detect and resolutely fight to prevent, push back, and strictly handle cadres and party members who degrade in political ideology, ethics, lifestyle, and manifestations of "self-evolution" and "self-transformation" in the spirit of Conclusion No. 21-KL/TW, dated October 25, 2021 of the 13th Party Central Committee, Conclusion No. 01-KL/TW, dated May 18, 2021 of the Politburo on continuing Implement Directive No. 05-CT/TW, dated May 15, 2016 of the XII Politburo on promoting learning and following Ho Chi Minh's ideology, ethics, and style. Strengthen education in the spirit of patriotism, national self-respect, and aspiration for advancement. Focus on improving the leadership capacity, fighting strength of grassroots party organizations and the quality of party members, focusing on discovering, fostering and developing new party members who are ethnic minorities.

3.2. Raise awareness, sense of responsibility and promote propaganda work of subjects on implementing grassroots democracy in ethnic minority areas in Quang Nam province

Firstly, raise awareness and sense of responsibility for subjects in implementing grassroots democracy in ethnic minority areas in Quang Nam province.

Party Committees at all levels, local authorities, cadres and civil servants, the Fatherland Front and grassroots people's organizations must first clearly understand the knowledge of implementing democracy at the grassroots. From there, there will be a high awareness and responsibility in improving qualifications and then promoting propaganda work from central to local, from collective to individual, to promote the responsible role when implementing grassroots democracy in ethnic minority areas. It is necessary to raise awareness of the importance of implementing democracy at the grassroots level in ethnic minority areas, clearly aware of the characteristics of implementing grassroots democracy in ethnic minority areas that are closely related to the implementation of the Party and State's ethnic policies, demonstrating the principles and goals of equality, solidarity, mutual assistance and development among ethnic groups.

The effectiveness of implementing grassroots democracy in ethnic minority areas in Quang Nam province depends greatly on raising awareness for officials, civil servants and people of all walks of life about the content of grassroots democracy in ethnic minority areas. minorities. Especially the staff are ethnic minorities. No one can understand the thoughts and aspirations of ethnic

minorities better than ethnic minority officials themselves. Therefore, in ethnic minority areas, if the government apparatus is ethnicized, it will increase the ability to raise people's awareness, propagate and mobilize ethnic minorities to realize their ability to be masters. Specifically, implementing grassroots democracy achieves high efficiency. If the team of civil servants and the people do not understand, are not properly and fully aware of the content of grassroots democracy in ethnic minority areas, the implementation will not achieve the same results. desire. Therefore, raise awareness for officials, civil servants and people, thereby promoting propaganda work on the role, content, methods and forms of implementing grassroots democracy in ethnic minority areas. minority is an important solution that needs to be implemented effectively.

Focus on building a team of qualified officials and civil servants with revolutionary moral qualities, promoting the core role in promoting the implementation of grassroots democracy in ethnic minority areas in Quang Nam province. Implementing Resolution No. 16-NQ/TU, dated December 15, 2014 of the Provincial Party Committee's Standing Committee on ethnic minority cadre work in the period 2015-2020 and orientation to 2025 and Resolution No. 21- NQ/TU, dated February 10, 2022 of the Provincial Party Standing Committee on building a team of ethnic minority officials in the period 2022-2025 and orientation to 2020, on the recruitment of civil servants and public employees Ethnic minorities are always given attention and direction. From the actual implementation of grassroots democracy in ethnic minority areas, it is necessary to pay attention to improving qualifications, leadership capacity, executive management and revolutionary moral qualities for officials and workers. position. The proportion of ethnic minorities participating in work in the political system and being appointed to leadership and management positions in agencies, units and localities is increasing, and the planning of people's cadres is increasing. Ethnic minorities are emphasized, ensuring proportional and structural requirements; The work of training, fostering, arranging, using, mobilizing, and rotating is increasingly in order, actively contributing to creating a source of quality leaders and managers of ethnic minorities. Party Committees and authorities at all levels are responsible for promptly resolving requests and recommendations of people in ethnic minority areas, ensuring mutual respect in information, reports, and discussions. professional work and promptly correct weaknesses and errors in the process of implementing grassroots democracy in ethnic minority areas. Training and fostering has been identified by party committees and authorities as an important task, so in recent times, highland districts have developed plans and focused on selecting ethnic minority officials. Some with prospects and good development trends go for professional training, political theory, legal knowledge, and state management knowledge. This is an immediate and long-term task, a premise for socio-economic development, and an important factor in improving the effectiveness of implementing grassroots democracy in ethnic minority areas.

Raising awareness is not only for agencies, unions and organizations, but each person must also raise awareness of the Party's policies and guidelines, the State's policies and laws, including implementation. democracy at the grassroots. People are conscious and responsible to promote their mastery in all areas of social life. To truly be in control, people must have awareness, capacity and demand for democracy. People who want to be masters must not only know how to enjoy mastery, but also know how to use mastery, and at the same time dare to think, dare to speak, and dare to do. Awareness and capacity related to intellectual level. Raising awareness is associated with improving the intellectual level and general knowledge of the people, including understanding, awareness, and evaluation of economics, politics, culture, and society. In particular, understanding the law has a direct impact on the practice of democracy. Or it can be said that raising awareness of people in ethnic minority areas must first implement ethnic policies. To properly implement current national policies is to develop all aspects of politics, economics - society, culture, security and defense... In which, socio-economic development is the basis, creating conditions to gradually overcome the gap in development levels between ethnic groups. And it is the decisive factor in raising awareness of people in ethnic minority areas in Quang Nam province.

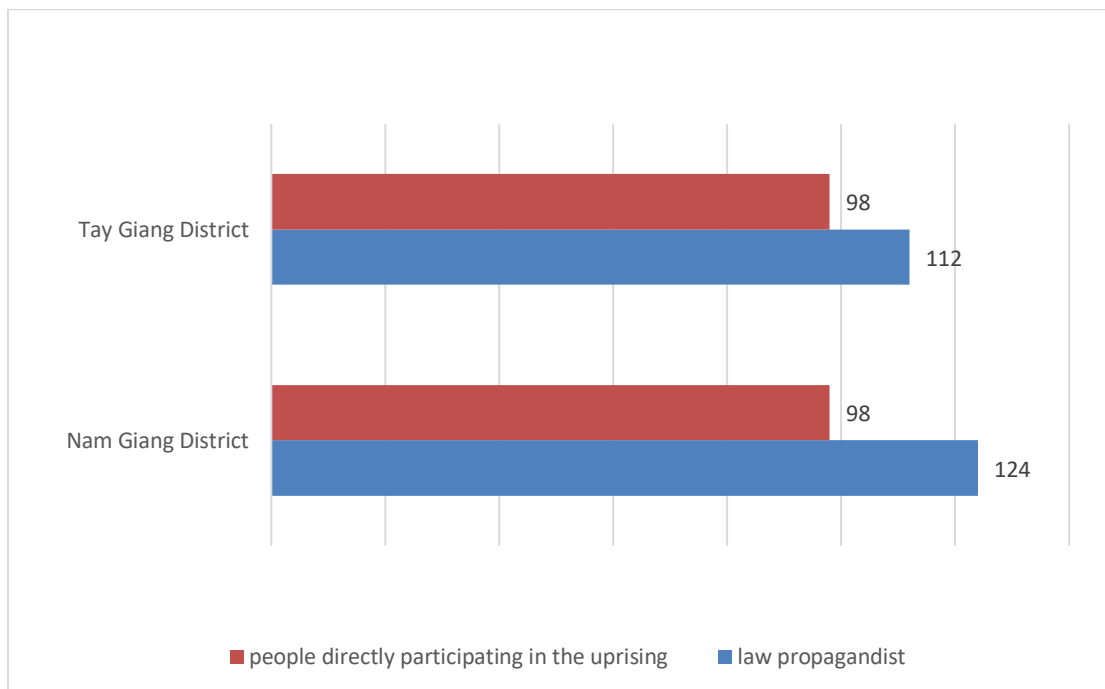

Second, promote propaganda work of subjects in implementing grassroots democracy in ethnic minority areas in Quang Nam province.

Each official and civil servant must always demonstrate a pioneering role in activities and work when implementing grassroots democracy in ethnic minority areas, always maintaining political courage, building a pure and healthy lifestyle. stay strong, stay away from negative manifestations of individualism, pragmatism, selfishness, bureaucracy, and self-interest. When dealing with work, you need to be dynamic, creative and confident. You must have a considerate and warm attitude when receiving people, know how to respect and listen to people's opinions and wishes to find the right solution; Avoid all manifestations of bureaucracy, loss of democracy, and alienation from the masses. Leading cadres must demonstrate a pioneering role in activities and work, always maintain political bravery, a healthy, pure lifestyle, not pragmatic, selfish, negative individualism, always Promote awareness and the spirit of self-criticism and criticism within your organization and agency.

In 2019, under direction from the People's Committees of Nam Giang and Tay Giang districts, the People's Committees of the communes continuously reviewed the team of legal propagandists to take necessary legal actions. set. At the same time, both districts have also established a Coordinating Council for Disseminating Law Education with 01 Council Chairman including the Vice Chairman of the District People's Committee, 01 Vice Chairman of the Council who is the Head of Department. district judiciary and members of the Council. According to Ngo Tuan Vinh (2021), the number of Law propagandists participating in the

process of disseminating to people in Tay Giang district is 112 people, Nam Giang district is 124 people. Of which, the number of people directly participating in the legal propaganda process is 105 and 98 people, respectively. This is a team close to the people, directly listening and solving people's questions.

Table 1: Number of Law propagandists participating in the dissemination process.

Source: Ngo Tuan Vinh (2021)

Regarding propaganda content, organize extensive propaganda, dissemination, and education for officials and civil servants with knowledge about the Party's viewpoints and policies, the State's legal policies, and about the content of reality. present democracy at the grassroots level in ethnic minority areas; Propagate legal documents, plans, roadmaps, processes, and implementation measures of each district and each commune in many diverse and diverse forms. Maintain good implementation of "Law Day" and "One Law per Week". Implement weekly legal newsletters, which introduce new documents of the Central Government, provinces and cities that take effect during the week for officials, civil servants and people to know and implement. Focus on propagating, disseminating, and educating officials and civil servants with knowledge of skills to promote democratic rights at grassroots level in ethnic minority areas such as: Propaganda, advocacy, and persuasion skills. people; Organizing skills for people to participate in discussions, discuss and contribute ideas; Organizational skills for people to inspect and

supervise.. Propagating the contents of people's discussions and opinions, mainly focusing on building conventions, electing and dismissing, dismissing village heads, and electing reputable people. credit.

Propagate theoretical and practical achievements when implementing grassroots democracy in ethnic minority areas, good practices. In addition, attention should be paid to disseminating and propagating documents that serve political tasks in each country. localities, legal regulations related to state management activities, focusing on legal fields such as: Land, civil, complaints, denunciations, environment, culture, crime prevention , social evils, regulations on receiving citizens, regulations on implementing democracy at the grassroots, resolving complaints and denunciations, managing civil status, household registration and social order and safety... Contents This is directly related to the team of officials and civil servants who need to master it to effectively deploy grassroots democracy in ethnic minority areas.

In propaganda work, local agencies and units, in coordination with the grassroots Fatherland Front, must always innovate, create, and diversify with propaganda forms suitable to the living area of the region. ethnic minorities such as: Posting news, articles, reports, advanced examples of implementing democracy at the grassroots level in ethnic minority areas through mass media such as Radio - Television, Newspapers, magazines, electronic information portals of provinces, cities, departments, branches and organizations. Effectively implement documents, resolutions, directives, and conclusions of the Central Committee, Provincial Party Committee, Provincial People's Committee, and Steering Committee for the implementation of the Provincial Democratic Regulations. Publicize new documents through the websites of the People's Committee, city agencies and units and the city Radio and Television Station. Thereby providing guidance, legal assistance and conveying State documents and laws to the people, contributing to raising people's awareness and sense of law observance, promoting people's right to mastery. people in all fields, creating consensus among the people on the good implementation of the Party's guidelines, the State's policies and laws and the political tasks of localities and units. Focus on well-organizing training courses and fostering knowledge, aiming to improve the level of understanding for officials and civil servants about knowledge of democratic law directly related to the field of professional work. the subjects and operations they are undertaking, contributing to improving the level and capacity to effectively implement grassroots democracy in ethnic minority areas. Organize propaganda and dissemination of knowledge about grassroots democracy in ethnic minority areas to officials and civil servants through briefings, activities, and monthly, quarterly, and summary conferences. year. Launch and organize writing and theater competitions on the topic of promoting democracy at grassroots level in ethnic minority areas; Compile and distribute handbooks, leaflets, flyers, and "Question and Answer" documents.

3.3. Continue to organize and implement grassroots democracy extensively among all agencies, departments, branches, organizations and unions

Completing the legal mechanism to implement grassroots democracy must achieve compatibility with the current mechanisms to implement direct democracy and representative democracy at the grassroots level in ethnic minority areas in Quang Nam province. To effectively carry out the work of implementing democracy at the grassroots level in ethnic minority areas, it is necessary to direct, urge and deploy it. Therefore, it is necessary to establish a Steering Committee for implementing grassroots democracy in ethnic minority areas; consolidate and strengthen the board when there are personnel changes; ensure that each department and each union has at least 01 participating representative; Develop working regulations, assign specific tasks to each member for serious implementation and have preliminary and final reviews.

Agencies, departments, branches, organizations and unions need to focus on deeply directing the good implementation of the contents of implementing democracy at the grassroots level. These are the contents that people know, people discuss, people discuss, and people monitor. Promulgate, supplement and promptly amend documents such as: regulations on coordination with sectors, regulations on administrative procedure reform; Posting documents related to people's rights at the workplace for people to understand; consolidate, build and improve the operational efficiency of the grassroots political system; direct the establishment of village reconciliation teams; Review and develop action plans and work program implementation plans in accordance with principles, content and regulations.

Before implementing grassroots democracy for people in ethnic minority areas, agencies, departments, organizations and unions must do a good job of implementing the Democracy Regulations at their agencies. That is to strengthen the inspection and supervision of preliminary and final reviews and well implement the periodic reporting regime on the implementation of democracy by all agencies, departments, branches, organizations and unions. for the implementation of democracy in agencies, departments, branches, organizations and unions. There is a need for investment management regulations, specifically people's supervision and measures to overcome weak situations such as bureaucracy, lack of democracy or formal democracy at communes, levels and sectors. , especially in fields and jobs related to the direct rights and responsibilities of citizens and the whole community. Let democracy become the most precious possession of the people, a driving force to promote the people's creativity in the cause of industrialization and modernization of the country. Coordinate inspections between relevant agencies of all agencies, departments, branches, organizations and unions to conduct inspections according to plan. Collect documents, instructions, reports from localities, organizations and individuals related to Program implementation. Consult with officials at all levels; Field surveys in communes and villages on inspection contents; Dialogue and consultation with beneficiaries

on the level of participation and benefits in the process of implementing the content and activities of implementing grassroots democracy in ethnic minority areas in Quang Nam province.

All agencies, departments, branches, organizations and unions that implement the Grassroots Democracy Regulations must strive to achieve practical results: Internal solidarity, negative evils are prevented and repelled. , the unit's tasks were completed well.

3.4. Ensuring economic, political, cultural, legal conditions and strengthening national defense and security for the implementation of grassroots democracy in ethnic minority areas of Quang Nam province

Firstly, ensuring the people's right to mastery is expressed in all areas of social life.

The implementation of grassroots democracy in ethnic minority areas must be associated with socio-economic development tasks in Quang Nam. We cannot achieve democracy in conditions of poverty and unhealthy society. Mastery is first of all mastery of one's own life and the prosperity of the community, so socio-economic development needs to be combined with the implementation of grassroots democracy in ethnic minority areas as a solid foundation. long-term, ensuring the exercise of the people's right to mastery. We must both achieve the goal of economic development and promote progress and social justice, which means achieving humane goals. Economic growth and development cannot simply be about increasing gross domestic product (GDP) or gross national product (GNP). Admittedly, both of these indicators are very important, because they are indispensable conditions for improving people's lives and increasing the strength of the nation. Economic growth and development in the context of market economic development in our country must inevitably comply with the harsh rules of the market economy in general.

The fields of social life in ethnic minority areas are very diverse; Therefore, the democratization process must be implemented in all fields, specifically:

In economics, the core thing is to ensure the benefits of workers: ownership, management, distribution; true ownership of the means of production. Continue to implement new policies on supporting production, improving people's lives, eliminating hunger and reducing poverty and other policies... Focus on innovating democracy at the grassroots level, first of all economic democracy, need to perfect a mechanism. Farmers truly own land, workers truly own factories, workshops, and factories, civil servants truly own work at the agency... Only then can the spirit of initiative be truly encouraged. creativity of the masses in study and work. The grassroots masses have the right to master their cultural life. On the other hand, the state must adopt educational policies to raise the intellectual level of the people. Democratic consciousness and

the ability to use democratic rights can achieve the necessary intellectual level. Implementing economic democratization in a socialist-oriented market economy is also to realize the very humane goal of socialism which is all for people, for wealth and happiness. of the people, for the strength of the nation and the country.

Regarding politics, people have the right to participate in Party building and the grassroots political system; have the right to run for office and vote; Discuss and contribute ideas to local socio-economic development programs. Regarding culture and spirit, it is the right to enjoy and create art and culture, the right to information, the right to freedom of speech, freedom of belief... The state and localities need to focus on investing in funding for printing. Print a series of regulatory documents and deliver them to each household. Mobilize mass media to widely disseminate information, propagate and educate awareness about regulations among the entire population, especially rural farmers. Implement the construction of cultural institutions for all hamlets and villages. At least each hamlet and village has a hall or cultural house, serving as a headquarters for meeting people and households.

Building and implementing democratic regulations at agencies must be closely linked with the implementation of economic, social, national defense and security tasks with the campaign to build and rectify the Party, strengthen the government, and reform administrative background. Building fronts and unions, democracy in the economy must be given full attention, especially the implementation of project programs, compensation for site clearance...Repairs, supplements, and improvements in terms of documents and strengthen the legality and sanctions of implementing democracy at the grassroots level. Taking into account the reality of the cognitive level and psychology of farmers, it is necessary to have more richness and depth in ideological content, practical specificity, rigor, conciseness, shortening the number of pages and articles, following the motto of few words, many ideas, short, simple, easy to understand, easy to remember, easy to memorize, easy to implement, easy to test and evaluate.

Currently, in Quang Nam there are 6 high mountainous districts, including some that still border the border area. The problem is to create enough jobs, overcome the shortage of jobs and low-income jobs in the country. agriculture, promoting agricultural and rural labor restructuring in accordance with economic restructuring towards industrialization and modernization; making farmers become subjects in socio-economic development. Therefore, practicing democracy is to create opportunities for the poor to develop economically and increase their income; Expand the ability for the poor to access basic social services (healthcare, education, clean water...) that are of quality, convenient and low cost. The above-mentioned direction of democratic practice is to contribute to ensuring social security and life security of rural people, especially farmers.

Second, focus on economic, cultural and social development, strengthen national defense and security, and contribute to enhancing the effectiveness of implementing grassroots democracy in ethnic minority areas.

Focus on economic, cultural and social development to improve the material and spiritual life of the people. When discussing the position, role and importance of the task of socio-economic development during the transition period to socialism, President Ho Chi Minh once determined that defeating imperialism and feudalism is relatively easy; Overcoming poverty and backwardness is much more difficult. It must be admitted that, despite more than 30 years of innovation, socio-economic life in many communes is still underdeveloped, with weak infrastructure and does not meet the requirements for economic development. - Society, life, and income of people are very low, the rate of poor households in ethnic minority areas and disadvantaged areas is high. Therefore, to contribute to the effective implementation of grassroots democracy in ethnic minority areas, party committees and authorities at grassroots levels in ethnic minority areas in Quang Nam province need to pay attention and focus on developing Socioeconomic.

Continue to take advantage of the investment attention of the Party and State, mobilize all investment resources for economic development, maximize the inherent advantages of Quang Nam province to create structural change. economy, gradually increasing the proportion of industry and services, reducing the proportion of agriculture, forming specialized and intensive farming areas, increasing labor productivity and raising people's income. Democratization in the economy must be accompanied by democratization in the enjoyment of cultural products. Therefore, economic development must be associated with the implementation of social progress, social justice and social equality, especially with cultural development, so that culture plays a motivating role. , is both a goal of development and a regulatory system for the sustainable development of society and the country. Have strict policies and laws to minimize unfair competition, minimize the gap between rich and poor, and especially prevent the polarization of rich and poor. Local authorities need to accelerate hunger eradication and poverty reduction, have solutions in economic development to help increase people's income, attract investment capital within and outside the province as well as abroad to build infrastructure. in rural areas, especially ethnic minority areas, ensuring that communes, hamlets and villages have convenient transportation roads, schools, medical stations, electricity and water supply systems. and essential manufacturing services facilities.

In the context of developing a socialist-oriented market economy, in order to practice democracy, it is necessary and foremost to continue to innovate and thoroughly reform the economy in the direction of democratization, creating all favorable conditions. It is beneficial for economic subjects to both freely do business in areas not prohibited by law, and to have the right

and be able to use everything that the State creates for them. With economic development, other accompanying achievements are also common achievements that all citizens have the right to enjoy to improve their material and spiritual lives. Economic development in the context of a socialist-oriented market economy must go hand in hand with the implementation of progress and social justice; must implement social equality and solve social security issues well even when material conditions are not really abundant. On the other hand, economic development and sustainable national development must be closely linked to cultural development; culture must be considered as the fourth axis besides the three economic, social and environmental axes; Culture must be considered as both a goal, a driving force, and a regulatory system of development.

Ensuring the conditions of national defense, security, social order and safety is one of the important and indispensable solutions to promote and improve the effectiveness of implementing grassroots democracy in ethnic minority areas. therefore need:

- Continue to effectively implement the Party's policies, guidelines, directives and resolutions, and the State's legal policies on ensuring national defense and security in ethnic minority areas in Quang province. Male.
- Party committees and governments at all levels accurately forecast the actual situation of the locality to develop policies and solutions to promote the role of the people in implementing democracy at the grassroots, avoiding formal democracy.
- Prevent, repel, and defeat plots of "peaceful evolution", riots and subversion against our Party and State; Focus on building an all-people national defense, associated with a solid people's security posture, strengthen measures to mobilize the people, rely on the people to promptly grasp the situation and detect all plots and activities of the Hostile forces sabotage the process of implementing grassroots democracy in ethnic minority areas in Quang Nam province.

4. Conclusion

The Communist Party of Vietnam's viewpoint on implementing grassroots democracy in ethnic minority areas in Quang Nam province is consistent and consistent in building a socialist rule-of-law state of the people, by the people, for the people. , all state power belongs to the people, the Constitution and laws of Vietnam have recognized, increasingly complete and progressive regulations to ensure that the people can exercise their right to mastery in a way substantive and effective.

Along with implementing grassroots democracy, ethnic minority areas in Quang Nam province must always be under the leadership of Party committees at all levels and the close direction of local authorities; Attract proactive and positive participation of all agencies, departments,

branches, organizations and unions; Closely linking the implementation of grassroots democracy with economic, cultural, social, legal development and strengthening national defense and security under the criticism and supervision of people in ethnic minority areas of the province Quang Nam, has affirmed the correctness of the orientation to promote democracy at the grassroots level in the ethnic minority areas of Quang Nam province today.

To implement democracy for ethnic minority people at the grassroots level in Quang Nam province's ethnic minority areas in the current period, requires a long-term process, with many steps and efforts of the entire Party, the entire people and the entire army. Solutions that need to be implemented include: Strengthening the leadership and direction of Party committees and authorities; promote the role of the Fatherland Front and people's organizations in implementing and organizing the implementation of grassroots democracy in ethnic minority areas of Quang Nam province; Promote propaganda work, raise awareness and sense of responsibility for subjects regarding the implementation of grassroots democracy; continue to innovate and perfect two forms of representative democracy and direct democracy in ethnic minority areas of Quang Nam province; ensure economic, political, cultural, legal conditions and strengthen national defense - security and deploy checks and supervision of power to improve the effectiveness of democracy implementation in Quang Nam province in the region ethnic minorities at the grassroots level.
